 - 10 iu/kg Biotin
- Contains Protected Zinc

When to use:

- Most effective when used as a grazing supplement from mid-summer onwards
- Introduce from 6Weeks of age through to finish
- Before weaning offer buckets in a creep area
- If lambs are not used to bucket feeding a period of training with the ewe will be beneficial

Feeding Recommendations

	g/head/day
Lambs	50-150

How to feed
Available as 25kg bucket
Offer 1 bucket per 40 lambs
100 lambs will require 2-3 buckets/week

These intakes are only a guide as various other factors will influence intake such as:

- Quality of grazing and other feeds available
- Animal production level, age and liveweight
- Close proximity to drinking water will increase intakes
